# How are you planning to give your Hour this year, Clara ?

I will reconnect with our planet, spending time in nature and the outdoors!

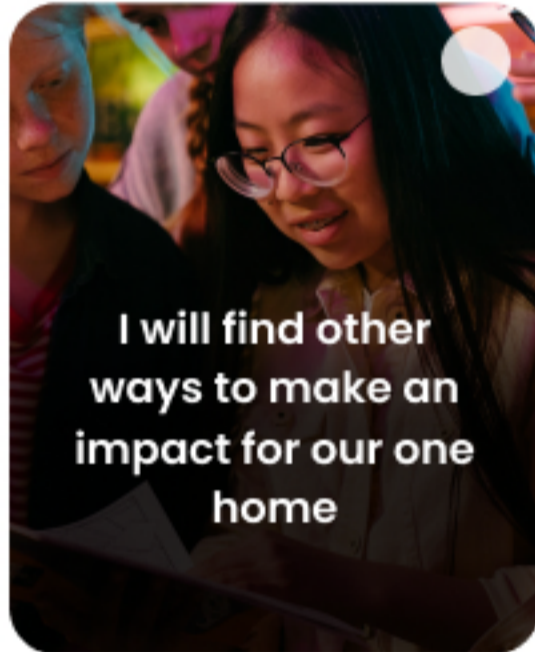

I will restore our planet, cleaning, rebuilding, and protecting natural spaces around me!

I will learn more about our planet and the issues we're facing by watching videos, listening to podcasts, reading articles, or attending events!

I will inspire others to care for our planet, encouraging my friends, family, and community to give their Hour for Earth

I will find other ways to make an impact for our one home

Don't know where to start?

Check out a few ideas of how you can give your Hour [here](#).
